Innovations in MTM

Innovative TIP Program

Launched new TIPs targeting specific members to support pharmacy initiatives in the Outcomes platform, including gaps in care, specialty support and adherence improvement.

CMR Competition

Hosted CMR competition for EPIC Pharmacy Network members during the month of August which lead to an overall organization completion rate increase.

Outstanding Technician Involvement

Consistently met aggressive goal of 90% technician documentation every quarter in 2024. This workflow shift increased efficiency and allowed pharmacists to focus on patient interactions.
